<u>SKILLS</u> JavaScript, Python, Html5, Css, Express, React, Redux, Flask, SQLAlchemy, SQL, SQLite, Sequelize Git, PROJECTS

OtakuXpress | (React/Redux, Flask, SQLAIchemy, Python , JavaScript, Glt)

live | github

- Proficiently developed a Flask backend to establish a seamless and optimized pathway to my database, enhancing the efficiency and simplicity of data retrieval and manipulation.
- Effectively leveraged Redux's state management capabilities to ensure seamless data synchronization and enhance overall application performance.
- Leveraged the robust capabilities of AWS S3 to optimize file handling processes and enhance overall data management efficiency.

AudioDome | (React/Redux, Flask, SQLAlchemy, Python, JavaScript, Html5, Css, Glt)

live | github

- Applied modern React best practices, including state management, component lifecycle methods, and efficient reusability, to create a responsive and intuitive user experience.
- Utilized Git for version control, facilitating collaborative development and enabling efficient tracking of code changes, ensuring project integrity and streamlined collaboration among team members.
- Implemented Flask backend with SQLAlchemy to ensure efficient data management and seamless integration with the front-end, enabling smooth communication between the application and the database..

Paradise Abode | (React/Redux, Express, JavaScript), Sequelize, Git)

live I github

- Employed Express.js as the backend framework, leveraging its robust features and middleware to efficiently handle routing and API requests, ensuring seamless communication between the client and server.
- Overcame the challenge of database management by utilizing Sequelize, an ORM for Node.js, to simplify and streamline interactions with the database, enhancing data retrieval and manipulation processes..
- Integrated React with Redux to develop a dynamic and interactive user interface for the Paradise Abode project, effectively managing state and enhancing the overall user experience.

EXPERIENCE

Technical Support Agent

VXI GLOBAL SOLUTIONS

Jun 2021 - Jun 2022

- Provided exceptional technical support to customers, promptly addressing their inquiries and troubleshooting issues, resulting in a 95% customer satisfaction ratings.
- Collaborated with cross-functional teams to identify and resolve escalated technical issues, maintaining a proactive approach to problem-solving.
- Documented and maintained comprehensive records of customer interactions, technical issues, and resolutions, contributing to a knowledge base for future reference and improving overall support efficiency.

Virtual Banker

J.P Morgan Chase Bank

Nov 2018 - Jun 2021

- Demonstrated strong knowledge of banking products and services, effectively assisting customers in making informed decisions about their financial needs..
- Provided comprehensive banking services to clients, offering personalized guidance and support in various financial transactions and account management.

EDUCATION

AppAcademy - completed the rigorous and immersive AppAcademy bootcamp in 2023
